MAYOR OF LONGMONT TO RECOGNIZES OUR COMMUNITY

City of Longmont Mayor, Bryan Baum, started the Positive Impact Award to recognize and applaud members of the community that have contributed positively to the City of Longmont. On Tuesday, May 11 at 7:00 pm, the mayor will acknowledge our Casa MESA Robotics team which will represent the community of Casa de la Esperanza and the St. Vrain Valley MESA Program. In March, our FIRST Tech Casa MESA Robotics team was awarded the “Motivate Award 2009-2010” Trophy at the Colorado Championship Tournament held at Arapahoe Community College in Littleton. As a result, our youth and members of the Casa MESA team will receive this Positive Impact Award at the City of Longmont City Council meeting at 350 Kimbark Street. Our Casa MESA students include:

Santiago Arredondo

Prerit Oberai

Esteban Gonzalez

Tania Gonzalez

Nishtha Oberai

Pedro Rascón

The students’ families are also invited to attend this event to see their children recognized. Our up and coming robotics students are invited and so the CasaMESA LEGO Robotics students will also attend. This award is significant in that it recognizes the dedication and passion of the Casa de la Esperanza community for robotics and MESA. We will be leaving Casa at 6:30 pm to attend this special occasion.
